1) Foodwarehouses Expect driver to unload his trk or pay Somone else to when you get there after a long trip. they always want it neatly stacked on their own pallets No matter how well & Neat it is Brought in. Lumpers charge 1 to 200 dollars to do it or driver can do it for free in most cases. I should be against the law.

2) these trucking companys get you on the Road in their truck & they think they own ya on your forced to get at least 70 hours of Driving in 8 days. It takes 15 to 18 hours of being awake & working & driving a day to produce 10 hrs of driving a day for 7 days in a Row. Thats 5 to 8 hours of work & staying awake a day that pays Nothing. Its called part of the Job. Merly Slavery. It Should be against the law.

FHWA-97-2350-30

3) If a driver gets 23% of the Gross for pay It should be 23% of what the load pays - Not 23% of what it pays after its trimmed More free Labor - Should be against the law. Everything the driver dont get paid for is logged off Duty. We need a law that requires a minimum of 15 dollars an hour for an duty time - Not driving to avoid all this Slavery.
