Re: Article in the Palm Beach Post
Oct 1-97

Dear Sir
I quite agree with Mr Torres who claims "Why do I need to speak English when I took the driver's licence in Spanish"

Solution: This is the U.S. Lethargic test only in English. OR: Give tests in all languages. If this becomes law we will then have to give tests in dialects. Yes, all rights have to be protected. How far do we want to take this silliness

over →

2 [illegible]

are the tests for citizenship given in Spanish also?

Remember Mexico was discovered by an Italian. Maybe we should also change the national language to Italian

Instead: Why should American lives be jeopardized by drivers who don't understand English directions.

This is the U.S.A.!

Giant tests in English Only

Very truly yours

Mary Porter
