US Department of Transportation Dockets
Docket NO. [Faa-2000-7623]-34
400 Seventh St. SW
Washington, DC 20590

To Whom It May Concern;
In reference to the Presidential Order to review FAA regulations.
Eliminate the third class medical (FAR Part 67.17) and enable private pilots to exercise their privileges using their state's driver's license considering that on the narrow highways, there is a closing speed of at least 110 mph with three feet or less of clearance.

Revise the annual inspection for non-commercial aircraft (Far Part 91.409). These aircraft should be inspected every two hundred hours or three years, whichever comes first considering that the average private aircraft owner flies less than thirty five hours per year.

Thank you for your consideration.

Sincerely,

Fred Cook
