Dear Sir, OST-00-8013 - 16

I'm writing in regards of the time change in Mercer County. To bad the people can't change the sun to come up in the north and set in the south but the dear Lord still has His hand in that good He does.

We vote our people in for a office than they go and change things, just the opposite what the people want.

We have to get up in the dark already now if we go ahead another hour will have to get up in the dark all year around. Than we are suppose to conserve energy. I'm so tried of fighting this time change. They should have left the time it was many

(over)

years ago.

I'm for leaving Mercer County on Mountain Time.

I have always made my appointments on Central time. I have never missed any.

I hope my writing did some good to leave Mercer County on Mountain Time.

Yours Truly
Sylvia Richard
