Re: DOCKET Number FAA-2001-8690

I, Loren L. Kreck a resident of Columbia Falls, MONTANA urge the FAA to give full and active support to directives outlined in Senate bill 82 governing commercial overflights above the National Parks

I wish to go on record in support of a 5000 ft minimum altitude measured from the highest peak on projection of each designated National Park and to include a one half mile peripheral buffer zone from the boundries -

Please include this letter in the hearing record. Thank you. Loren L. Kreck
