A few thoughts about the article in Land line about border Crossing NAFTA, the requirements I think are good, if you can inforce them. If they do come here; why not make them buy trucks from the U.S., it would be money for america and Jobs. for truck manufactors (Employees) Also have a sign some where in clear sight defining them as Mexican trucks. (there flag on a Plate, so any one who see's it will know, who they are! A last thought when you go out of state, fishing hunting, you pay more for a lience, Have them Pay More also too come to america (U.S.)

thanks Mark Kozmicki

P.S. I really don't want them here, because we have enough problems, drivers in U.S.A. now,
