Re: Mandatory Passenger Manifest For International Flights

Dear Sir/Madam:

We are opposed to the proposal referenced above. Our international flights go into and out of Canada exclusively.

Since no passport is required for passengers between U.S. and Canada, it seems absurd to deny boarding if a passenger has no passport, and is therefore unable to provide passport information.

In fact, only a few of our pilots have passports.

We hope you will reconsider this proposal. It is unnecessary for Air Carriers operating under FAR 135 (on demand). Thank you for your consideration.

John W. Lotter
