RE: Docket #FAA-2002-13378-2193
"RPTS. BY CARRIERS INVOLVING ANIMALS"

Dear FAA:

Thank you for the proposed rule and please finalize it soon to save animals' lives. It is already 2 years since Congress enacted the law.

The final rule should define "animal" as all warm- and cold-blooded animals including pets and those being transported for the pet, laboratory and zoo trades.

Also proceed with a rule on improving training of airline workers who handle animals.

Yours truly,

Carole & James Parker
