Attention Dr Jeffrey W Runge, Administrator

Dear Dr Runge,

It is my belief that future generations, forced to make drastic cuts in pollutant emissions, and forced to walk, or bicycle or give up their suburban life styles, these future generations will look back to the age of the S.U.V.s and curse those who manufactured and bought these S.U.V.s.

However since the plague is upon us at least the effects can be lessened by adopting the proposals of the Union of Concerned Scientists.

Yours sincerely,

W. A. Brandum

Mr. William A. Brandum
