NHTSA-03-16128-23

NVS-100 12-16 cp

Dear Dr. J.W. Runge:

I drive a Dakota V6, 1999. But I still want a truck/SUV that gets good gas milage, is safe, & pollute less. The Union of Concerned Scientists has a "blueprint" using "off-the-self" technologies to build SUVs that will do all of the above mentioned concerns & more.

Please make these changes. Thank you for your time.

Sincerely

Roman
