Greetings Dr. Runge, NHTSA-03-1628-39

B0

I am concerned that sport utility vehicles (SUVs) are not using available technologies to enhance fuel economy and safety. Interestingly, the Union of Concerned Scientists has demonstrated that a better SUV could be available with much better fuel economy and safety.

I urge you to make SUVs safer for American families and the environment.

Thank you for your consideration of these concerns.

Sincerely,

Steve Lenty
