

THANK YOU for implimenting the requirement that airlines file mothly reports on animal who die at their hands!! Yeah! I hope you finalize the rule AS QUICKLY AS POSSIBLE for the sake of the animals. I'd also like to take this moment to express my concern that the proposed rule only applies to pets of U.S. families and seems to lack protection for other animals - such as those destined for labs or zoos, and pets from other countries. I'd like to request that the final rule define "animal" more broadly so as to protect as many as possible. Thank you for your time. Darynne Jessler
