Subject: Easier Photo ID!

Most of the 9/11 terrorist had drivers licenses for ID. A member of EAA-1288 and WWII pilot sent me the following. This sounds more like the way to go as it would not be as easy to get this type of ID, for terrorists, as it would be for a driver's License .

vern,
I can see we will be going back to the "Airman's Identification card" which everybody carried back around WW11. You got a medical and an AID card, plus your license or certificate. -- joe
