Sirs,

I wish to add my comment in re docket No. 98-4 124, <sup>13</sup>notice 1; in that I support the reduction of light levels in Daytime Running Lights. I have personally found the light output of DRLs to be glaring and distracting. While it is not totally germane to the issue I do not like DRLs. Thank you for allowing me to express my opinion.

Sincerely,

Nelson H. Bergman
