8/15/98

Gentlemen:

41765

Docket #98-4124-36

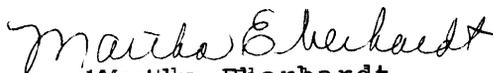

We feel that daylight running lights are worthwhile; however, we feel that the DRL's on current cars are much too bright.

Reduction to 1/4 the present brightness would be good, but don't wait 4 years to accomplish this reduction of intensity.

Sincerely,

Wallace Eberhardt

Martha Eberhardt
