September 25, 1998

To: U.S. Dept. of Transportation Dockets
Docket # FAA-98-4390
400 7th Street Southwest
Room Plaza 401
Washington D.C., 20590

Subject: Proposed Rule Amending Helicopter Instrument Flight Rules

To Who It May Concern

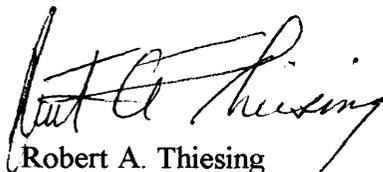

I support completely the proposed changes to the Helicopter IFR rules.

Myself, the HAI and many individuals have been working since 1988 to get these rules changed to make it safer for helicopters to fly in marginal weather conditions.

I commend you for finally proposing the rule change and hope that it becomes law.

Sincerely yours,

cc. HAI
Jim Church
