Al Gore should wake up and smell the coffee. This plan to search people at airports without cause is a violation of privacy and the workings of a communist government.

The FAA is just as stupid as Gore for even considering such a waste of tax payers money. Anyone planning to bomb a plane is not going to walk up to the gate with a bomb. Gore should just stick to saving the Wales and staying out of things he knows nothing about.

The Clinton administration has sent a message to all terrorist that America is weak and we can't deal with terrorism.

The plan is a waste like Clinton and Gore.

This is America not Russia*
