FHWA-99-5748-4

To whom it may concern,

I am a wife of a truck driver . He has been driving for about ten years now. He is also blind in one of his eyes since birth... He has limited to instate hauling for many years now. We also own two other trucks , beside his personal truck.

What i'm writing about is to change the law , that applies to persons with being blind. My husband ,for example, has no accidents while driving , no kind of tickets what so ever on his lisences. His blindness has made him more aware of his surroundings.

While our other drivers are running out of state , My husband is restricted to stay in state. The only way we are surviving, is by the other trucks . There is no frieght for in the state of Florida.

Thank you,
Starving in Florida
