

In-Flight Medical Event Report

Revised October 1998

84068

This data collection is being conducted pursuant to the Aviation Medical Assistance Act of 1998. The Act directs that a major air carrier shall make a good faith effort to obtain information on persons who die on an aircraft of the carrier including any person who is declared dead after leaving the aircraft as a result of a medical incident that occurred on the aircraft. Use of this form should be restricted to reporting passenger/flight crew medical events that result in death or the threat of death.

 Diagnosis _____

***Disclosure Voluntary**

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this form is 2120-0629. It is estimated that it should take approximately 10 minutes to fill out the form. The data collection is required under the Aviation Medical Assistance Act of 1998 [Pub. L. 105-170, 112 Stat. 47 (April 24, 1998)] to assist the F.A.A in determining whether air carrier emergency medical equipment and flight attendant emergency training should be modified. Respondants are not required to reveal their identity, therefore no confidentiality provisions are required or needed.
