RE: Docket FAA-2000-7119 Defibrillators)  
DATE: August 1, 2000

I wholly support the above referenced draft regulation, in order to require all airlines to carry defibrillators.

Airline personnel should be required to provide at least minimal training so their personnel can effectively utilize the devices.

American, Delta and certain other carriers should be commended for their employment of the devices. Shame on TWA.

Thank you for your consideration.
