

To whom it may concern, In response to the notice of temporary flight restrictions (TFR). I respectfully submit the following comments on behalf of the center Ohio banner towers. If this becomes law as it is written I can see it putting us out of bussness. We have been towing banners in center Ohio for more than 30 years. As I do agree with the proposed rule it needs to be more clear on who is effected by it. We banner towers rely on out door gatherings such as football game,fairs or anything that attract a large amount of people. From what I have read it shounds like the rule is to stop airplanes from mixing in with others in a non-contact (radio)way. As for here in Ohio we all have radio contact with each other and or airports when dean necessary. We have not had any problems with other aircraft. We even talk with military we necessary. As far as safty for the public, we do not fly over the people but reather on the out side of them. We have emergency places to go if need. We take the safty of the people very serious. Please remember the little people that our trying to make a living at something that we enjoy doing very much. Safty is the number one facture to us. Thank You,Mark Gerhart
