

Dear Ms. Sandra Zywokarte,

I would like to first thank you for looking at my application. In looking at the papers I recently recieved, I can see that i'm not the only one with a bad eye so I know I'm not the only one with this problem. In looking over other applications I noticed my sight is not as bad as some of the others. I would like to take this opportunity to ask you once again to please grant me this waiver. I don't know anything else but driving. Its all I've ever done. My wife is unable to work and I'm trying to put two teenage sons through school. The man I work for has worked with me in the past years, but we have recently started hauling our wood to Columbus, Mississippi. And that is why I need this waiver so badly. I think I have a good record (driving) and there have been a number of people I grew up with around that never knew I had an eye problem. Just by looking at my driving you cannot tell it. Before the CDL's came out I drove everywhere. I've been all up North, around Alabama, and all over Mississippi. The reason I put Mississippi and Tennessee on my application is we'll mainly haul to Mississippi and there is also a paper mill in Counts, Tennessee. And I didn't know if we would haul to Counts or not so I listed it just in case. So in closing I thank you for your time and again would deeply be grateful if I get this waiver granted. Without it I don't know what to do for employment to make enough to pay my bills and support my family.

Thank you,  
James Linden Johnson

P.S. If it is not too big of an inconvenience, I would greatly appreciate a reply as soon as possible. Thank you.
