Dear Mark,

Since our dicussion about the FAA possibly placing new flight restrictions on you, I wanted to express some of my concerns to you in the hope that it might make a difference.

Our company has been able to advertise in a very effective manner by flying our banner over every OSU football game. We have received a good response from current and potential customers. Our dealings with your company have been very beneficial and will only continue to help. It would be a great disappointment if we were no longer permitted to use this method of advertising, not to mention that it would take away the opprtunity to target several thousand of home owners. If there is anything I can do o help prevent these restrictions from occurring please do not hesitate to ask.

Sincerely,

Douglas W. Perry
President
