RE: Docket Number FAA-2000-8274
Notice No. 00-13

To whom it may concern:

It has come to my attention that a proposal is in the works to ban flights of all kinds over sporting events. The operating assumption of this proposal is that it will have no serious economic impact. However, what this means to me is that if you put my family out of business, which this proposal most likely will, I will no longer be able to continue my education.

I know that during the 47 years my family has been in the aerial advertising business, that there has never been an incident affecting public safety caused by aerial advertising flights. Accordingly, I ask you to withdraw this ill-considered proposal.

Sincerely,

Ian Mansfield
