

We already have enough deaths from experienced adults driving 18-wheelers. Look at the morbidity and mortality stats for teen automobile drivers. States are raising the age limits on teen automobile drivers. Please do not kill more citizens by allowing 18 year olds, who don't have the maturity to drink or vote to drive. Allowing this to happen would be a dereliction of your duty to protect the innocent drivers and passengers on America's highways. Don't cede in to the trucking lobbies; the life that could be lost could be a member of your family or mine.
