To Whom It May Concern:

The North American Free Trade Agreement (N.A.F.T.A.) has been a total disaster for the Farm Community. No one in Government has lived up to the promises, and covenants that were sworn to over five (5) years ago, to protect American Farmers and Citizens from "unsafe foods, illegal immigration, and substandard products crossing the Border at below agreed "dumping prices".

It would therefore be prudent to believe (using the fore-mentioned example) that the Mexican's (nor American Politicians) will find it necessary to live up to any promises to "keep Mexican Trucking Corporations Rolling-Stock" safe for use on American's Highways.

Unless we Americans are willing to KEEP THE D.O.T. MAINTENANCE AND OPERATIONS LAWS TOUGH FOR BOTH MEXICAN & AMERICAN TRUCKING COMPANIES, WE WILL SURELY GIVE THE MEXICAN TRUCKING COMPANIES UNFAIR MECHANICAL ADVANTAGES, that will mean "unsafe road conditions" for American Citizens.

We are slowly "giving our precious United States of America away to the Foreigners", and no one seems to understand, (or want to) that by giving ANY concessions to our safety regulations, that we are only killing ourselves..... because the Mexican's don't care about American Safety on American Roads. Only making more U.S. Dollars, to increase the value of the Mexican Peso.

Keep the Faith. Keep the Road Regulations Tough for EVERYBODY. Don't cave in to the Politicians, and "Save America" one truck at a time.

Sincerely

Richard A. See
