

PLEASE do not allow Mexican trucks into our country - UNLESS we can be absolutely assured of their safety maintenance and standards the same as required of US trucks. Our own trucks leave a lot to be desired - how can we ever allow worse conditions from foreign drivers to be on our highways endangering the safety of all travelers? And giving them 18 months of freedom is totally ridiculous. Shuffling papers is not what should be done. You must consider the safety of our own drivers.
