

I THINK THE TIRE MONITORING DEVICE IS AN EXCELLENT IDEA IF IT IS FAIL SAFE. JUST THIS EVENING COMING OUT OF WORK, HAD I NOT HAD A SHORT DISTANCE TO WALK TO MY VEHICLE, I WOULD NOT HAVE NOTICED MY TIRE WAS NEARLY FLAT. I NORMALLY CHECK MY TIRES OFTEN TO HELP WITH GAS MILEAGE AND ASSIST NORMAL WEAR PATTERNS BUT DURING THIS LATEST HAZY, HOT AND HUMID SPELL, I NEGLECTED TO CHECK INFLATION WHICH COULD HAVE RESULTED IN SERIOUS COMPLICATIONS.
