Attention: Department of Transportation

I would like to let you know I strongly feel that people with diabetes should not be discriminated against for commercial driver's licenses.

They should be given individual health assessments, rather than being unfairly denied a job. A new policy that includes a three year rule is still very unfair to new drivers who are good drivers and very capable of holding a commercial license. They should be evaluated solely according to their driving record and not because they have this unfortunate disease.
