**Re: Docket Number FAA-2001-10047
Regulation of Fractional Aircraft Ownership Programs and On-Demand
Operations**

Via Email

Since September 11, the Nation, and the aviation community in particular, have directed every resource towards restoring our air transportation system. Many issues still remain regarding restoration of full access and service within the national airspace system.

In light of the tragic events of early last month, the National Business Aviation Association requests that the FAA extend the comment period thirty days to allow all interested parties additional time to prepare well-developed, thoughtful comments on this proposed regulation.

Very truly yours,
