Dear Sirs:

I fully support the rules proposed in this Notice. The process used in its development was not only fair and impartial but was a remarkable example of accomplishment through cooperation between industry and government.

As a Part 135 business owner, I believe this rule to be a large step toward improving our ability to effectively serve the public without compromising safety. As a Part 91 operator/pilot, this rule is an excellent guideline for safety standardization.

I hope that the FOARC participants feel as gratified in the result as I do.

Very truly yours,

Thomas E. Ciotti
President
