

I would like to know,if it is possible to buy jet hours in the USA.
Even if they are heavier than 12.500lbs.Or any aircraft with a gross weight of
12.500lbs or more.Am I allowed to do my training on it?

I'm an student pilot from the Netherlands and I'm doing the basic course.Now I
have my PPL+IR and I'm busy doing my Commercial licence.
I heard that it is not possible any more,but I would like to finish my training
over here in the USA.Jethours here are cheaper than in Europe and Europe is to
small too.
Hope that I informed you right and I'm waiting for an answer.
Thank you.
