

Changing CFR 107.17 to 1542 TSA, I would hope that the current 15 minute response time for law enforcement officers will still be in affect at airports. Eliminating the 15 minute response time would or could eliminate Airport police officers that are posted in our nations airports. This would not be good for Homeland Security. Please do not change any of the requirements as the Federal officers will be placed in the screening areas thru out all of the United States airports. The local Airport police officers need to be in our nations airport for a better homeland security.
