Dear Mr. Kubsch:

Thank you for your filing on the U.S. DOT Docket Management System on November 13, requesting the Federal Motor Carrier Administration (FMCSA) to update the power unit information we have for your operation.

In order for us to make this change, you must file an updated Form MCS-150. For the quickest response to your request, you may complete and file this form on the Internet at <http://usdotnumberregistration.com>. If you prefer to file a paper copy, please call 1-800-832-5660 and a Form MCS-150 will be mailed to you.

Concerning your request for us to update your SafeStat information, our standard procedure is to produce updated figures on a monthly cycle, generally during the first week of every month. When updated or modified data are received during a given month, they will be reflected in the next monthly update.

We appreciate your continued concern for the safe operation of your company's trucks and drivers.

Sincerely yours,

Terry Shelton
Director, Office of Information Management
