RE: Document FAA-2002-13464-2

To whom it may concern:

Thank you for the opportunity to comment on Document FAA-2002-13464-2. I am in approval for Improved Seats in Air Carrier Transport Category Airplanes. This proposal will make most Humans feel much safer in flying in Airplanes, and this will probably boost sales, if the person feels safer.

I know this will take time for testing in making new seats; it will also take time for adding or improving the new Air Carrier Transport Seats in all Airplanes.

Will this raise ticket prices? Most likely it will raise ticket prices for all airlines, but who can put a price on a human life. I will not mind paying the extra money for the safety of my life or the safety of family member.

Sincerely,

David Manning
