

To the U.S. Department of Transportaiton

I am sending these comments in favor of an exemption for Oregon on the threat of withholding funds from Oregon in regards to the Farm Plates

My family has been farming in 113 years and has never had an accident with a truck using Farm Plates.

Oregon is already Finacially strapped and we don't need any more expenses.

It is getting harder and harder for a Family Farm to keep going and we already have enough rules and regulation on us.

Please take these comments into consideration.

Thank you, for your time.

Sincerely,

Dennis Beach
