Dear Sirs:

I propose the following text changes to the above document:

PART 1 – Definitions

Drop the definition of area navigation (RNAV). This needs more industry input.

PART 71

71.11 Air Traffic Service Routes (ATS).

Drop paragraphs a, b, and c.

Rewrite the whole 71.11 to read as follows:

“Unless otherwise specified, ATS routes include the protected airspace dimensions as determined acceptable by the Administrator.”

71.13 Classification of Air Traffic Service (ATS) Routes.

Under 71.13 (b), rewrite as follows:

(b) In subpart E of this part:

- (1) Federal Airways.
- (2) RNAV Routes.
