DISPOSITION

XX **Granted** (subject to conditions, see below)

The above action was effective when taken: March 13, 2003, through March 13, 2005

Action taken by: **Paul L. Gretch, Director**
Office of International Aviation

XX The authority granted is consistent with the overall state of aviation relations between the United States and Serbia and Montenegro and between the United States and Macedonia.

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated: **XX** Holder's certificates of public convenience and necessity

XX Standard exemption conditions (attached)

XX Statement of authorization approving American/Swiss code-share operations dated April 23, 2002, and conditions therein

Conditions: The route integration authority granted is subject to the condition that such operations are consistent with the applicable bilateral aviation agreements. Furthermore, (a) nothing in the award of the route integration authority requested should be construed as conferring upon American additional rights (including fifth-freedom intermediate and/or beyond rights) to serve markets where U.S. carrier entry is

(See Reverse Side)

limited unless American first notifies the Department of its intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights; and (b) should there be a request by any carrier to use the limited-entry route rights that are included in American's authority by virtue of the route integration authority granted here, but that are not then being used by American, the holding of such authority by route integration will not be considered as providing any preference for American in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

On the basis of data officially noticeable under Rule 24(g) of the Department's regulations, we found the applicant qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) our action was consistent with Department policy; and (2) grant of the authority was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within seven (7) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.
