

UNITED STATES OF AMERICA  
DEPARTMENT OF TRANSPORTATION  
OFFICE OF THE SECRETARY  
WASHINGTON, D.C.

Issued by the Department of Transportation on May 13, 2003

**NOTICE OF ACTION TAKEN -- DOCKET OST 2003-15133**

This serves as notice to the public of the action described below, taken by the Department official indicated (no additional confirming order will be issued in this matter).

Applicant: VOLGA-DNEPR J.S. CARGO AIRLINE

Date Filed: May 7, 2003

Relief requested: Exemption from 49 U.S.C. section 40109(g) to permit the applicant to operate one, one-way, cargo charter flight from Cleveland, OH, to Cape Canaveral, FL, on or around May 15, 2003, using its AN-124 aircraft to transport two Atlas V Payload Fairing, and associated transport trailers, on behalf of Lockheed Martin. The applicant stated that Lockheed Martin needs urgent delivery of the trailers in order to meet aggressive schedules for necessary modification to the Payload Fairing; that the cargo is too large for transportation on U.S.-carrier aircraft; and that surface transportation is not feasible because of the delicate nature and high value of the cargo, and conditions unsuitable to maintain system integrity compliance.

Applicant representative: Glenn P. Wicks, 202-457-7790 DOT analyst: Allen F. Brown, 202-366-2405  
Responsive pleadings: Volga-Dnepr served its application on those U.S. carriers operating large all-cargo aircraft. Each carrier indicated that it did not have aircraft available to conduct the proposed operations and that it had no comment or did not oppose grant of the requested authority.

Statutory Standards: Under 49 U.S.C. section 40109(g), we may authorize a foreign air carrier to carry commercial traffic between U.S. points (*i.e.*, cabotage traffic) under limited circumstances. Specifically, we must find that the authority is required in the public interest; that because of an emergency created by unusual circumstances not arising in the normal course of business the traffic cannot be accommodated by U.S. carriers holding certificates under 49 U.S.C. section 41102; that all possible efforts have been made to place the traffic on U.S. carriers; and that the transportation is necessary to avoid unreasonable hardship to the traffic involved (an additional required finding, concerning emergency transportation during labor disputes, was not relevant here). For examples of earlier grants of authority of this type, *see, i.e.*, Order 2001-5-23.

**DISPOSITION**

Action: Approved

Action date: May 13, 2003

Effective dates of authority granted: May 13, 2003, through May 17, 2003

Basis for approval: We are granting Volga-Dnepr's request to operate its proposed flight from Cleveland to Cape Canaveral, during the period May 13-17, 2003. We found that its request met all the relevant criteria of 49 U.S.C. section 40109(g) for the grant of an exemption of this type and that the grant was required in the public interest. Specifically, we were persuaded that the need to move the cargo promptly in order to meet urgent modification schedules, the fact that the cargo could not be transported by surface transportation because of its delicate nature, the potential negative impact of delivery delay; and the unique, oversized nature of the cargo, constituted an emergency not arising in the normal course of business. Moreover, based on the representations of the U.S. carriers, we concluded that no U.S. carrier had aircraft available that could be used to conduct the operation at issue here. We also found that grant of this authority would prevent unreasonable hardship to the cargo and Lockheed Martin. Finally, we found that the applicant was qualified to perform its proposed operation (*see, e.g.*, Notice of Action Taken dated August 26, 2002, in Docket OST-96-1454).

Except to the extent exempted/waived, this authority is subject to our standard exemption conditions and to the condition that Antonov comply with an FAA-approved flight routing for the authorized flight.

**Action taken by:** **Read C. Van de Water**  
Assistant Secretary for Aviation  
and International Affairs
