

I would like to see the FAA maintain or increase the current minimum altitude, eliminate exemptions from the altitude rule, and give the state and National Park Service the ability to restrict tour overflights from state and national parks and wilderness areas.

I am writing on behalf of all the Hawaiian birds who cannot express their concern by writing to you!! Don't you think that the helicopters get close enough already? This must be so scary for those poor creatures who have no choice in the matter.

Please don't let big business continue to put such intense pressure on the precious resource which keeps tourists coming back, and which we call home-beautiful Hawaii.
