

Good afternoon, I am a private pilot who donates time to the El Dorado County Sherrifs department as well as the Civil Air Patrol. I have been giving my time as a private pilot for the benefit of Youth activities, Young Eagles and Flight Familiarization flights at local airshows, etc.

The FAA has gone too far this time. This kind of Gestapo tactics continually erode at General Aviation and it has to stop. They have hurt General aviation continually for years including the extensive regulations after 9-11, which had nothing to do with General Aviation, pilots, and the supporting General Aviation supporting business. THIS HAS TO STOP!!!!!!! Don Armstrong - AOPA 01408051
