RECORD OF TELEPHONE CONVERSATION

NAME(S) OF PERSON(S) CONTACTED OR IN CONFERENCE AND LOCATION

W. Jack Hurula, 1931 Horton Road, Jackson, MI 49203 (517) 740-8141
Pat Boyd, Office of Rulemaking, FAA

SUBJECT

1) Suggestion for rule change in response to review of existing regulations published on 2/25/04

DIGEST

Mr. Hurula is a commercial airline pilot with 35 years experience. He wants to have FAA open Reagan National airport to general aviation. One thing we could do to prevent hijacking is to eliminate all cockpit doors. Have separate doors that open only to the outside of the aircraft for passengers and flight crew. He indicated that he heard that EI-AI is requiring this on its new aircraft.

CONCLUSION, ACTION TAKEN, OR REQUIRED

I told Mr. Hurula that I would add his comment to the docket for the regulatory review effort.
