Application of Singapore Airlines Cargo PTE Limited for a statement of authorization permitting Singapore Airlines Cargo Limited to display the designator code of Scandinavian Airlines Systems ("SK") on all-cargo flights operated by Singapore Airlines Cargo between Chicago, Illinois, and Copenhagen, Denmark

The code-share operations authorized here are subject to the following conditions:

- (a) The statement of authorization will remain in effect only as long as (i) Singapore Airlines Cargo Limited and Scandinavian Airways continue to hold the necessary underlying authority to operate the code-share services at issue, and (ii) the code-share agreement providing for the code-share operations remains in effect.
- (b) Singapore Airlines Cargo Limited and Scandinavian Airways must promptly notify the Department if the code-share agreement providing for the code-share operations is no longer effective or the carriers decide to cease operating the approved code-share services. Such notice should be filed in Docket OST-2004-17644.¹
- (c) Notwithstanding any provisions in the contract between the carriers, our approval here is expressly conditioned upon the requirements that the subject foreign air transportation be sold in the name of the carrier holding out such service in the computer reservation systems and elsewhere; that the carrier selling such transportation (*i.e.*, the carrier shown on the waybill) accept responsibility for the entirety of the code-share journey for all obligations established in its contract of carriage with the shipper, and that the cargo liability of the operating carrier be unaffected.
- (d) The authority granted here is specifically conditioned so that neither carrier shall give any force or effect to any contractual provisions between themselves that are contrary to these conditions.
- (e) We may amend, modify, or revoke the authority granted at any time without hearing at our discretion.

¹ We expect this notification to be received within 10 days of such non-effectiveness or of such decision.
