Washington, DC 20590-001

Subject: Docket No. FAA-2004-17168
Review of Existing Regulations

References: 14 CFR Parts 61, 91, 135, 121, and 142

Gentlemen,

There is a pressing need within the industry to update, standardize, and harmonize the various regulations and documents relating to airman and crewmember training. There are multiple documents that include qualification and training requirements for pilots, flight instructors, simulator instructors, check airmen, and training evaluators. Many of the sources of information are in conflict with one another.

These documents include 14 CFR, Parts 61, 91, 135, 121, and 142. Other documents included are various Practical Test Standards and Operations Inspector's Handbooks as well as a number of FAA forms.

We would like to thank the FAA for the opportunity to comment on FAA regulations.

Sincerely,

R. C. Strickland
Director, US Government Affairs
