

UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
WASHINGTON, D.C.

In the Matter of
2005/2006 U.S.-China Air Services
Case and Designations
Docket OST-2004-19077

Served: October 4, 2004

NOTICE

By Order 2004-9-5, the Department instituted the *2005/2006 U.S.-China Air Services Case* and invited interested U.S. carriers to file applications for authority to serve the U.S.-China market and for allocations of frequencies effective March 25, 2005, and March 25, 2006. The Order established a procedural schedule and specified September 10, 2004, as the date DOT Information Responses would be available. It also specified October 13, 2004, as the due date for direct exhibits.

Subsequent to September 10, 2004, Counsel for United Parcel Service (UPS) advised the Department that it needed to make revisions to the data it had provided on which the Department based, in part, its information responses. UPS has submitted the revised data to the Department. The Department has now revised its information responses to take account of the UPS submission and has placed these information responses on computer diskettes. Parties wishing to receive the reissued information responses on these diskettes or by email should contact Michael Lane or Kevin Bryan in the Competition and Policy Analysis Division at (202) 366-2352 and (202) 493-0183, respectively.¹

¹ Due to the volume of this material, we will be unable to print and distribute copies to the parties. The Department is thus issuing the information responses on computer diskettes. Use of the data contained in the Department's information responses (either from hard copy or computer diskette) is restricted to representatives of applicant carriers and interested parties (*i.e.*, those that have filed applications or comments) in this proceeding.
