Subject: RSPA-2004 18730 - 31 Removing rail placards for 'homeland security' concerns.

Dear sirs,

I am asking that you do not remove the placards from rail cars for any reason.

The reason they were initiated is of far greater need than any reason to remove them.

They are a MUST for 'first responders' to derailments and the emergency crews who work these disasters.

Thank you for considering my plea.
